The B-Class.
This Brochure is prepared by Daimler AG and it predominantly reflects the capabilities and performance of vehicles sold in Europe.

Some characteristics, capabilities, performance features and optional extras (e.g. towing systems) may not be available or may not apply in Australia under Australian conditions. The information in this Brochure is therefore indicative, illustrative and provided only for guidance and should not be relied on. To obtain current and accurate information on a vehicle and any options applicable to Australia, contact your local authorised Mercedes-Benz dealer.
The new generation B-Class. For the best of what’s coming up.

Set off. With a Sports Tourer which, with its agility and comfort, makes every outing a little voyage in its own right. Discover uncharted territories with sustainably innovative drive systems and, on request, with the dynamic all-wheel drive system 4MATIC. And everything is seen in the best light of the new optional LED High Performance headlamps. There is much to experience: the new generation B-Class.
For the best with every appearance:

2 | Mercedes-Benz B 250 4MATIC
   polar silver metallic
   AMG Line equipment line, AMG 5-twin-spoke light-alloy wheels, Exclusive package, Night package, cranberry red leather upholstery, high-gloss black ash wood trim

14 | Mercedes-Benz B 220 CDI
   jupiter red
   Urban equipment line, 5-twin-spoke light-alloy wheels, Night package, black leather upholstery

20 | Mercedes-Benz B 220 CDI
   jupiter red
   AMG Line equipment line, AMG 5-twin-spoke light-alloy wheels, AMG Exclusive package, Night package, RED CUT black leather upholstery, carbon-fibre-look trim

The illustrations may show accessories and optional extras which are not part of the standard specification.

54 | Technical data
57 | Upholstery and paintwork
A redesigned dynamic front apron, delicately styled headlamps – and a unique light show which pays as much attention as it draws: in conjunction with the optionally available LED High Performance headlamps the driver is greeted by a blue light when unlocking the doors. Get in and feel good. In a generous interior which is optimally prepared for all activities.

Fine and cultivated.
From a good family.
For everything that crosses your paths.

Whether you are on your way to the mountains alone or to the sea with the whole family. The reassuring feeling of driving a Mercedes-Benz accompanies you everywhere. Innovative driving assistance and safety systems support the driver and protect the occupants and other road users better than ever before. Like the COLLISION PREVENTION ASSIST PLUS, which can warn the driver visually and acoustically about an impending rear-end collision and if necessary even instigate a brake actuation. This is the new generation B-Class with Mercedes-Benz Intelligent Drive.
LED HIGH PERFORMANCE HEADLAMPS

What does light technology in a Mercedes have to do? In particular during journeys at night it must not place more strain on the driver’s eyes, and it should also be efficient and durable. The optional LED High Performance headlamps get straight to the point. The LED projector-beam technology in the low-beam headlamps and the LED reflection technology in the main beam optimally illuminate the road, at night even many times better than conventional headlamps. And this occurs with a pleasant colour temperature which corresponds to that of daylight. And with the splendour befitting a Mercedes.
The best reason to get active.
Light contributes considerably to our wellbeing. One more reason to have it unfold its effect in a Mercedes. In the new generation B-Class the optional ambient lighting creates a unique feel-good atmosphere. Particularly at night its pleasently indirect light accentuates the lines and the high-quality materials. The ambient lighting is based entirely on LED technology and offers twelve different colours and five dimmer settings.

Lights which brighten every mood.
A fiery statement, no exaggeration.

The stylishly coordinated combination of high-quality appointments and materials characterises the Exclusive package available on request. The multifunction steering wheel featuring a 3-spoke design and the shift lever are covered with fine leather. The luxury seats with upholstery in leather, for example in cranberry red, add a fashionable flourish and fine highlights with contrasting topstitching.
The distance is too short, and suddenly it’s too late. Rear-end collisions are among the most common types of accident in road traffic. Reason enough for Mercedes-Benz to develop COLISION PREVENTION ASSIST PLUS, a radar-based safety system which can minimise the risk of a rear-end collision or lessen the severity of an accident. And this is how it works: if the system detects that the distance to the vehicle in front in the speed range between 30 and 250 km/h is too short, it warns the driver visually via a warning lamp in the instrument cluster. If the distance continues to lessen, there is an additional acoustic warning. In addition to this the Adaptive Brake Assist can support the driver’s braking in order to prevent a collision. And should the driver not react at all, the system can intervene and reduce the speed via autonomous partial braking.
Keep your distance.
Stay ahead.
Because the best is coming up.

B for best value: systematically optimised aerodynamics with a $c_d$ value of just 0.24 (B 180 CDI BlueEFFICIENCY Edition with wheel R00) reduce the fuel consumption considerably. As a role model when it comes to environmental compatibility the B 200 Natural Gas Drive with the extremely efficient natural-gas drive Monovalent Plus is driving way ahead of its class.
The best in view.
Captured on camera: the sporty AMG Line with the Night package. Powerful: the AMG bodystyling with the front and rear apron, side skirts and high-sheen AMG light-alloy wheels. The Night package makes a striking impression with selected design elements in high-gloss black, such as the radiator trim with two black louvres and chrome inserts plus the bumpers featuring chrome.
When the views are breathtaking.

With the optional AMG Exclusive package and its exclusivity and individuality the entire interior is literally on red alert. Whether on the upholstery in RED CUT black leather, the dashboard and the door centre panels in ARTICO man-made leather or on the multifunction sports steering wheel in leather with a flattened bottom section – red contrasting topstitching adds sportily distinctive highlights.
What makes a car a Mercedes?

Deep-rooted traditions: in our case, it is innovative traditions that run deep. We have continually gone down previously uncharted avenues. Milestone by milestone. These ventures spawned the first vehicle with a crumple zone, the first ABS, the first diesel car. The first automobile. But rather than wallowing in the past, let us look to the future.

**Mercedes-Benz Intelligent Drive** – on the road to accident-free driving. We develop intelligent assistance systems which actively support the driver and noticeably relieve the driver’s workload. They monitor and analyse the vehicle’s surroundings and handling – and warn the driver if they identify any critical situations. When necessary, some of the systems are able to intervene to take corrective action. Potential dangers are identified earlier than ever – and ever more frequently avoided as a result. Discover the fascinating world of Mercedes-Benz Intelligent Drive at [www.mercedes-benz-intelligent-drive.com](http://www.mercedes-benz-intelligent-drive.com)

**BlueEFFICIENCY** – our vision of emission-free driving. Sustainability is a big word to which we lend real meaning in all that we do, down to the smallest details. From minimising the environmental impact of our production operations to alternative drive concepts.

Welcome to a world that revolves around you. We focus on people. This is the standard we adhered to when we developed a new platform for your personal contact with Mercedes-Benz. With individual services made for you. “connect me” links the vehicle with your world, with everything that is important to you. “move me” offers new mobility solutions. And with “inspire me” we give you an exclusive look ahead at the future of mobility. Your access to an exciting world: [www.mercedes.me](http://www.mercedes.me)

As you can see, we have major goals in our sights. And what could be better than seeing these aims achieved whilst on a long drive in a Mercedes?
The new generation B-Class sets new standards: the low wind resistance cuts driving noise and fuel consumption. This is taken care of by a large roof spoiler, an aerodynamically efficient A-pillar design, aerodynamically optimised exterior mirrors plus extensive panelling for the underbody. Further BlueEFFICIENCY equipment for cutting consumption and emission output includes an ECO start/stop function, tyres with optimised rolling resistance, an ECO display in the instrument cluster and a shift point indicator. The new B 180 CDI BlueEFFICIENCY Edition is a benchmark where efficiency is concerned. The adjustable radiator shutter and a lowered comfort suspension further optimise the wind resistance, and the CO₂ output falls to just 94 g/km. No comparable car is cleaner.
The gas cylinders for the B 200 Natural Gas Drive are – safely stowed away – in the underbody. Two with a capacity of 19.2 l each, one beneath the rear bench seat with 88 l. Through this design the boot capacity remains at the same level as that of a B-Class with a conventional drive system.
Natural Gas Drive.
The intelligent alternative.

The Monovalent Plus natural gas drive in the B-Class Natural Gas Drive astounds with very low emissions and low fuel costs with dynamic performance. Driven by a smooth and efficient 4-cylinder petrol engine with direct injection and turbocharging. Monovalent Plus means that the engine is basically run on natural gas. Three natural gas tanks ensure a range of up to 500 km. A bonus where mobility is concerned is offered by the 12 l fuel tank for up to 220 km more. Should the gas stock ever be exhausted, the vehicle automatically and undiscernibly switches over to petrol operation. The engine output in each case is identical. Once the natural gas tanks have been refilled, the journey is continued under natural gas operation.
Driving ambition.

Extremely efficient diesel and petrol engines from the latest generation in a total of eight output categories are available for the new generation B-Class. All engines are turbocharged and fitted with an ECO start/stop function as standard. There is also an alternative drive configuration for particularly environmentally friendly mobility in the form of the Monovalent Plus natural-gas drive in the B 200 Natural Gas Drive (see the previous double page).

Depending on the engine the power transmission is via a 6-speed manual transmission or the automatic dual clutch transmission 7G-DCT, which changes gear very smoothly with virtually no interruption in tractive power.

FIND OUT MORE
All the technical data for the new generation B-Class can be found on page 54/55.
On the gripping subject of traction. 4MATIC all-wheel drive.

Specially developed for the platform of the new generation B-Class. In normal conditions as efficient as purely front-wheel drive, but with tangibly more traction in the wet or snow. This is the all-wheel drive system 4MATIC for the new generation B-Class.

An electrohydraulically controlled multiple-disc clutch integrated in the rear axle differential enables variable torque distribution. This ranges from particularly economical pure front-wheel drive, e.g. for steady motorway driving, to 50:50 split on snow or slippery road surfaces or in dynamic driving manoeuvres.

FASCINATION OF CHASSIS AND STEERING

An even balance of comfort and dynamism is offered by the comfort suspension. Low levels of rolling and pitching improve vehicle control and handling safety.

The lowered comfort suspension offers particularly comfortable springing. Lowering the body by 20 mm at the front and 15 mm at the rear improves aerodynamics.

Speed-sensitive steering provides variable power assistance dependent on speed. At high speeds the servo assistance is reduced; at lower speeds it is continually increased.

The Sports Direct-Steer system adds to the comfort of speed-sensitive power steering with a variable ratio dependent on the steering angle. On winding roads, for example, this produces a more agile handling response and improved straight-line stability.
May we introduce? Your personal assistant.

The optional Active Parking Assist with PARKTRONIC makes it easier to find a parking space and also to enter or leave parking spaces. On request it automatically steers the car into parallel and now also into perpendicular parking spaces. The Active Parking Assist is automatically switched on when driving forwards up to 35 km/h and flags up suitable parking spaces. When the driver engages reverse gear and confirms the suggested parking space, Active Parking Assist automatically carries out the steering manoeuvres up to a speed of 10 km/h.

HOW ATTENTIVE: FURTHER OPTIONAL ASSISTANTS

The reversing camera is activated automatically when reverse gear is engaged and on the CENTRAL MEDIA DISPLAY shows the driver the area behind the vehicle together with dynamic guide lines.

The optional Traffic Sign Assist system is able to recognise speed limits, no-entry and no-overtaking signs and their cancellation, and display them to the driver.

1 Applies only to automatic cars.
The reassuring feeling of driving a Mercedes-Benz.

We are the first automotive manufacturer worldwide to have developed an integral safety concept, aimed at avoiding accidents, ensuring ideal responses to dangers and lessening the consequences of accidents. For the occupants of a Mercedes and for all other road users, too.

**SAFE DRIVING**

The drowsiness detection system ATTENTION ASSIST serves to enhance driving safety, especially on long trips and at night. It monitors the steering behaviour of the driver to recognise typical signs of drowsiness and severe loss of attention, and gives a visual and acoustic warning of impending microsleep.

The ADAPTIVE BRAKE control system improves braking performance through intelligent intervention: in wet conditions, the brake discs are kept dry. The brake pads are applied automatically when the driver’s foot is removed abruptly from the accelerator pedal. And on uphill slopes, the system can prevent the vehicle from rolling backwards.

The optional DISTRONIC PLUS proximity control helps maintain a safe distance from the vehicle ahead above all in stop-and-go traffic. It can brake the vehicle automatically and accelerate again as appropriate to the traffic situation. If a risk of a rear-end collision arises, COLLISION PREVENTION ASSIST PLUS – part of DISTRONIC PLUS – can initiate autonomous partial braking if the driver fails to react, to avoid a collision or to lessen the consequences.

The optional Blind Spot Assist system employs radar sensors and can draw attention to one of the most serious sources of danger in road traffic. When a vehicle is detected in the blind spot, a red triangle lights up in the exterior mirror. An acoustic warning additionally sounds as necessary. The system is active at speeds between 30 and 250 km/h. The optional Lane Keeping Assist system is able to recognise when the vehicle is unintentionally drifting out of its lane at speeds between 60 and 200 km/h, duly warning the driver via pulsed vibrations on the steering wheel. Blind Spot Assist and Lane Keeping Assist also form part of the optional Lane Tracking package.

**IN THE EVENT OF DANGER**

The optional PRE-SAFE® occupant protection system is able to identify critical driving situations in advance and to initiate precautionary measures to protect the vehicle’s occupants if an accident appears imminent. Such measures include reversible belt tensioning or automatic closing of open side windows, for example.

**IN AN ACCIDENT**

In an accident, the intelligently coordinated restraint systems and the structure of the vehicle’s bodyshell make an effective contribution towards optimum protection for the vehicle’s occupants. First and foremost the airbags: front airbags for the driver and front passenger each triggered in two stages depending on the registered severity of the impact, sidebags for the driver and front passenger, windowbags between the A- and C-pillars, a kneebag for the driver plus optional sidebags in the rear.

**AFTER AN ACCIDENT**

Every Mercedes-Benz is fully trained in first aid. If the worst comes to the worst, the engine can be stopped automatically, the hazard warning lights and emergency interior lighting can be activated, and the central locking can be unlocked. Finally the Mercedes-Benz emergency call system (country-specific) can send GPS position data and important vehicle information. Though it is to be hoped this will never be necessary.
The internet has changed our lives. Now it is changing the world of driving, too.

Navigation, telephone, audio, video, internet – all this is presented in high resolution by the optional COMAND Online control and display system on a 20.3 cm (8-inch) display. Fast hard-disc navigation with realistic topographical map display for relaxed route guidance. In combination with a suitable mobile phone you can call up internet sites when the vehicle is stationary and use Mercedes-Benz Apps such as POI search or weather while out and about. A DVD player, radio and interfaces to allow connection to external devices are provided, giving a range of customised entertainment options. Other COMAND Online highlights are the voice-operated control system LINGUATRONIC, Bluetooth® interface with hands-free function, text message reading function and music transfer via audio streaming.

FURTHER INFOTAINMENT OPTIONS

The additional option Live Traffic Information (part of COMAND Online) facilitates the reception of the latest and precise traffic information for optimised dynamic route guidance and precisely calculated arrival times.

With twelve loudspeakers, including a woofer, and a 9-channel DSP amplifier the 450 W Harman Kardon® Logic 7® surround sound system combines with audio systems to offer a perfect listening experience, in conjunction with COMAND Online also in DTS and Dolby Digital 5.1 format.

User-friendly navigation, precise map data and excellent route guidance – the Garmin® MAP PILOT brings all the familiar benefits of a Garmin® navigation system to the Audio 20 CD. It is done by simply inserting an SD card with navigation software and map data sets.
The ambient lighting bids you a warm welcome.

Climb in and feel at home – with its pleasant, indirect light the ambient lighting available in combination with the optional Light and Sight package creates a real sense of wellbeing throughout the entire interior. Especially at night, it accentuates the contouring and high quality of the interior design, imparts a feeling of security thanks to an impression of generous spaciousness and reduces dazzle from oncoming traffic. Twelve different colours and five dimming levels are available to create the desired lighting mood. The ambient lighting features full LED technology, and is conveniently controlled via the instrument cluster. It also switches on when the doors are opened, welcoming the passengers on board.

MORE LIGHT, PLEASE

The optional Light and Sight package provides a higher quality feel for the interior and optimum visibility in the car. It comprises the single-tone ambient lighting, function illumination and a rain sensor for the windscreen wipers.

The optional brushed stainless steel door sill panels set sporty exclusive highlights with their illuminated “Mercedes-Benz” lettering. They also protect the entrance area from damage.
A dream of a load compartment.

The optional EASY-VARIO-PLUS system comprises the Load Compartment package with a load compartment floor adjustable at two heights. In the higher position, this creates a surface that is almost level with the load compartment sill. This can be extended still further by folding down the backrests of the rear seats. In the lower position, the load space is enlarged, making it possible to load particularly high items. The front passenger seat can be folded forward. This allows the backrest to be used as a table by the rear-seat passengers, or the extra space to be used to load particularly long items. The angle of the rear-seat backrests can be adjusted to a 90° cargo position. This extends the load space, but means that the rear seats can still be used for passengers. In addition to this all the rear seats can be slid forwards. The folding armrest with two cup holders offers a practical through-loading feature.

FURTHER LOAD COMPARTMENT OPTIONS

For more order, safety and additional stowage areas in the load compartment there is the optional Load Compartment package with a height-adjustable load compartment floor, a 12 V socket and a folding box beneath the load compartment floor.

Adapted protection for children aged about two to twelve years comes in the form of the optional child seats integrated in the outer rear seats. For children aged about two to four years a side head restraint (already included) and a special padded play table are additionally required.
You can put together the new generation B-Class highly individually. But you can also simply marvel at the extensive standard equipment.

**EXTERIOR HIGHLIGHTS**

- Steel wheels with 10-hole trims, with 195/65 R 15//205/55 R 16 (R00//643) tyres*
- 10-spoke light-alloy wheels with 225/45 R 17 (R43) tyres*
- Reflection-type headlamps
- Window weatherstrip and waistline trim in matt black plastic
- Door handles and bumpers painted in vehicle colour
- Comfort suspension

**INTERIOR HIGHLIGHTS**

- Seats with Venlo fabric fabric (Vianen upholstery for B 200 Natural Gas Drive)
- Matrix-look trim
- 3-spoke multifunction steering wheel with twelve control buttons
- Roof lining in crystal grey

* Wheels depending on the engine (detailed allocation in the price list).

As fine as the new generation B-Class is, it is just a first impression. For the complete range of standard equipment please refer to the price list, which is also available for viewing online.
Reassuringly stylish: The Style line.

Whether you are cruising the boulevards or exploring the countryside, these perfectly matched stylish design and comfort features exude self-assurance and individuality.

**EXTERIOR HIGHLIGHTS**
- 10-spoke light-alloy wheels with 205/55 R 16 (55R) tyres
- 7-twin-spoke light-alloy wheels with 205/55 R 16 tyres (R27, for B 200 Natural Gas Drive)
- Radiator trim with two louvres painted in iridium silver and chrome inserts
- Beltline trim strip in chrome
- Long chrome trim strip on the rear bumper

**INTERIOR HIGHLIGHTS**
- Seats with accentuated shoulder area and Vianen fabric upholstery
- Seat Comfort package
- Line-pattern trim
- 3-spoke multifunction steering wheel with trim in silver chrome
- Shift lever featuring use of silver-chrome trim
- Instrument cluster with 11.4 cm (4.5-inch) TFT colour multifunction display
- High-gloss black light switch with ring in silver chrome
Take in the sights in your urbane Mercedes. Everywhere you look, there are fresh new design features awaiting discovery, while the interior offers a highly individual style.

**Inspiringly progressive: The Urban line.**

**EXTERIOR HIGHLIGHTS**

- 5-spoke light-alloy wheels, with 225/45 R 17 (R04) tyres
- Multi-spoke light-alloy wheels with 225/55 R 17 tyres (08R, for B 200 Natural Gas Drive)
- Radiator trim with two louvres painted in iridium silver and chrome inserts
- Two-pipe exhaust system with tailpipe trims in chrome look (except B 200 Natural Gas Drive)
- Shoulderline trim strips in chrome
- Short chrome trim strip on the rear bumper

**INTERIOR HIGHLIGHTS**

- Seats with accentuated shoulder area and upholstery in ARTICO man-made leather/Montfoort fabric with contrasting topstitching
- Sail-look trim
- 3-spoke multifunction steering wheel in leather, with perforated grip area and twelve control buttons and also topstitching and trim in silver chrome
- Shift lever in perforated leather with contrasting topstitching and use of silver-chrome trim
- Instrument cluster with silver-coloured round dials and red needles, plus 11.4 cm (4.5-inch) TFT colour multifunction display
- Roof liner black (optional: roof liner crystal grey)
Take the new generation B-Class to the sporting pinnacle where its look, driving feel and exclusivity are concerned. The AMG Line design and equipment line comprises extensive AMG bodystyling and further measures for enhancing driving dynamics. In the interior, too, which presents itself in decidedly sporty guise.

**AMG Line.**

**EXTERIOR HIGHLIGHTS**
- AMG bodystyling with front and rear apron and side sill panels
- AMG 5-twin-spoke light-alloy wheels, painted titanium grey and with a high-sheen finish, with 225/40 R 18 tyres (794)
- Radiator trim with two louvres painted in iridium silver with chrome inserts
- Two-pipe exhaust system with tailpipes in chrome look
- Lowered comfort suspension and Sports Direct-Steer system
- Perforated front brake discs
- Brake callipers with “Mercedes-Benz” lettering at the front

**INTERIOR HIGHLIGHTS**
- Seats with accentuated shoulder area and upholstery in ARTICO man-made leather/black DINAMICA microfibre with contrasting topstitching
- Carbon-fibre-look trim
- 3-spoke multifunction sports steering wheel in leather, with a flattened bottom section, perforated in the grip area and with red contrasting topstitching
- Shift lever in perforated leather with red contrasting topstitching and use of silver-chrome trim
- Instrument cluster with silver-coloured round dials and red needles, plus 11.4 cm (4.5-inch) TFT colour multifunction display
- Brushed stainless steel sports pedals with rubber studs

AMG Line initially exclusively available in conjunction with Exclusive package or AMG Exclusive package. Availability of the AMG Line – without the packages mentioned – in all likelihood from January 2015.
Exclusive package.

The stylishly coordinated combination of selected interior appointments meets very high expectations with regard to comfort, quality and design. The highlights include heated front seats with 4-way lumbar support, which are covered in fine leather to match the multifunction steering wheel and gearshift lever. The dashboard and the door centre panels are finished in matching ARTICO man-made leather. Design features in silver chrome and trim in open-pore eucalyptus wood or high-gloss black ash also contribute to the exclusive ambience.

AMG Exclusive package.

Building on the AMG Line, this equipment package offers maximum exclusivity, individuality and sportiness. Highlights include the heated seats with 4-way lumbar support, which make a striking impression with their RED CUT black leather upholstery with red contrasting topstitching. To match these seats, the dashboard and the door centre panels are finished in ARTICO man-made leather, as are the armrests in the doors. The multifunction sports steering wheel in leather with a flattened bottom section and perforated grip area, together with the shift lever in perforated leather, feature a look and feel that underscores the interior’s sporty character. The red contrasting topstitching is to be found on all these features, indicating a loving attention to detail.
Night package.

The Night package offers striking exterior features to lend the vehicle an expressive sporty character. These include selected design features in black. The radiator trim boasts two louvres in high-gloss black and chrome inserts. Also in black are the high-sheen 5-twin-spoke 45.7 cm (18-inch) light-alloy wheels, the exterior mirror housings and the shoulderline trim strips. Dark-tinted heat-insulating glass from the B-pillar onwards shields the interior from prying eyes while underscorign the vehicle's sporty character.
Optional equipment.

There are countless possibilities for making the new generation B-Class your own. From small details that add special touches to comfort features which until recently were still the reserve of the luxury segment. Take your time to browse around – in this brochure, by reference to the price list or online. You can easily configure the new generation B-Class according to your very own wishes at the national website for your own country, accessible via www.mercedes-benz.com

1 In addition to their distinctive look, the LED High Performance headlamps boost night-time driving safety thanks to broad light distribution, a daylight-simulating colour temperature, and low energy consumption. The "Coming Home" function welcomes the driver with an exceptional light display from blue to white when they unlock the car. The tail lights feature LED technology and create a visual highlight while improving visibility.

2 KEYLESS-GO: the vehicle can be conveniently unlocked, started and locked with this access and drive authorisation system – simply by carrying the electronic key.

3 When not in use the trailer coupling can be folded behind the rear bumper to save space. The tow hitch is simply folded out to attach a car trailer or mount a bicycle carrier. A control with LED in the luggage compartment serves to release the coupling.

4 Panoramic sliding sunroof: with its large glazed areas, this roof system ensures a particularly light and welcoming ambience in the interior. The rear part consists of a fixed panoramic glass sunroof while the front part is an electrically operated glass sliding sunroof.

1 Optional extra LED High Performance headlamps not available for B 200 Natural Gas Drive.
Genuine accessories.

The new generation B-Class leaves virtually nothing to be desired. And for those extra special needs there are genuine accessories. These cover almost every conceivable need for more pleasant and individual motoring. Every accessory has been developed specifically according to Mercedes-Benz’s high quality standards.

1 Makes you beam: the illuminated Mercedes star. The star centred in the radiator grille of your Mercedes will light up courtesy of fibre-optic cable and LED technology when the vehicle is locked and unlocked by remote control, and when doors or boot lid are opened. Functions only when the engine is switched off. Not in conjunction with DISTRONIC PLUS (code 239).

2 With the new optional high-resolution Head-up Display you always have the most important information, such as the speed, speed limits or navigation instructions, in view, depending on the equipment. For you it looks as though the display is floating two metres in front of your eyes above the bonnet. This ensures more safety as you no longer have to take your eyes off the road. A sensor adjusts the brightness of the display to the respective light conditions.

3 Ski and snowboard rack New Alustyle "Comfort": Fits the anchorage on your basic carrier. For up to six pairs of skis* or four snowboards, lockable. The practical pull-out function makes loading and unloading easier.

iPad® rear-seat docking station. The easy-to-use docking station integrates the iPad® with all its familiar functions into your Mercedes-Benz in an ergonomic, crash-proof way. All connections, such as for your head-phones or charging cable, remain accessible. The holder is secured to the head restraint and can be tilted and rotated by 90°. Available for the iPad® 2, iPad® 3 and iPad® 4.

Now online at www.mercedes-benz-accessories.com

* Depending on the ski geometry.
Wheels.

Wheels are indispensable on technical grounds, of course. But on an emotional level, too, perfect wheels are an absolutely crucial ingredient of many people’s dream car. With this in mind, we have put together a particularly large and diverse selection for you.
5125R 791

44R R04 5-spoke light-alloy wheel, painted high-gloss black, with 225/45 R 17 tyres (part of Urban design and equipment line except BlueEFFICIENCY Edition models and B 200 Natural Gas Drive)

26R 791 08R

25R 44R 01R

08R Multi-spoke wheel with 225/55 R 17 tyres (part of Urban design and equipment line for B 200 Natural Gas Drive)

25R 781 26R

26R 704

01R 794

791 Multi-spoke AMG light-alloy wheel, painted titanium grey and with a high-sheen finish, with 225/40 R 18 tyres (option, not in conjunction with Night package and not for BlueEFFICIENCY Edition models or B 200 Natural Gas Drive)

794 AMG 5-twin-spoke light-alloy wheel, painted titanium grey and with a high-sheen finish, with 225/40 R 18 tyres (part of AMG Line design and equipment line, not in conjunction with Night package and not for BlueEFFICIENCY Edition models or B 200 Natural Gas Drive)

646 AMG multi-spoke light-alloy wheel, painted black and rim flange with a high-sheen finish, with 225/40 R 18 tyres (option for all models except BlueEFFICIENCY Edition models and B 200 Natural Gas Drive)

But if you ever do need help, we’re here for you around the clock. You can reach us from anywhere in Europe on the toll-free number 00800 1 777 77771 (or alternatively directly through Mercedes-Benz Contact2).

Ensuring that you can keep moving in the event of a technical breakdown, accident, vandalism or even misfuelling, the Mercedes-Benz mobility package Mobilo3 is included as part of the standard specification. It covers the cost of local assistance, for example for towing your car away or for a replacement vehicle – and will do so in more than 40 countries across Europe for up to 30 years3. Furthermore, for the first four years following initial registration of the vehicle, Mobilo offers special mobility services in the case of workshop visits involving warranty or goodwill situations.

Avoid unexpected workshop costs4: a Mercedes-Benz Service Contract covers unforeseeable repairs, maintenance or wear parts, depending on the specific contract. Your local Mercedes-Benz dealer will be pleased to provide information about available service contracts and terms and conditions.

Mercedes-Benz Financial Services. Drive a Mercedes-Benz and remain flexible when it comes to payment: our attractive leasing and finance products make this possible – matched to your requirements and needs. We will also be happy to offer you a range of detailed insurance proposals. Just speak to your Mercedes-Benz dealer, who will be happy to provide information about our current range of financial services, terms and conditions.

More than simply a star. A whole universe.

1 Alternatively: +49 69 95 30 72 77. Calls to a landline are chargeable. 
2 Calls from a mobile phone to a landline are chargeable. 
3 When it expires, (four years after initial registration) Mobilo can be extended to up to 30 years from one service to the next by your authorised Mercedes-Benz service partner. 
4 Mercedes-Benz service contract terms and conditions apply.

Enjoy the digital experience of Mercedes-Benz – wherever you happen to be. Thanks to a range of offers optimised for smartphones and tablet computers, you can immerse yourself in the world of Mercedes-Benz even while on the move.

Insights into the full product range, a varied programme of entertainment and direct contact to a wide variety of services await you. Take an interactive tour with the Interactive Owner’s Manual, for example, to get to know your dream car better. Experience the various functions in detail, take a close-up look at what’s going on inside or explore the benefits of the particular model on your national Mercedes-Benz website.

With the “Mercedes-Benz Guides” app you can also explore the highlights of the various vehicles off-line. The app is available free of charge from the iTunes Store® (iOS) or the Google Play Store (Android).

Incidentally, our TV and magazine media are also available to watch and read digitally. Explore the whole brand world for yourself at www.mercedes-benz.com. Just click to take a look.

The fascination of Mercedes-Benz. A car whose name brings a gleam to the eyes of people all over the world, one that has featured in many a movie and been sung about in international hits, is surely far more than just a car. How did it come to this?

Discover just what has been moving the world for more than 125 years and take a fascinating journey through time as well as through the history of the automobile at the Mercedes-Benz Museum. More than 1500 exhibits over a display area of 16,500 square metres demonstrate the unique heritage and innovative power of the inventor of the automobile, among them one-off models such as the oldest Mercedes still in existence, built in 1902, or the legendary “Gullwing” cars. Welcome to a place of innovation: www.mercedes-benz-classic.com/museum

What would the history of Mercedes-Benz be like without motorsport? What would motorsport be without Mercedes-Benz? The first vehicle ever to win an automobile race was powered by a Daimler engine. The first Mercedes was a racing car. The Silver Arrows – a true legend. Out of this glorious past has grown an exciting present: the MERCEDES AMG PETRONAS Formula 1 team and the DTM Mercedes AMG C-Coupés fight it out weekend after weekend for points and victory.

1 Details of rated power and rated torque in accordance with Directive 80/1269/EEC in the currently applicable version.  
2 The figures shown were obtained in accordance with the prescribed measuring process (Regulation [EC] 715/2007 in the currently applicable version). Note according to Directive 1999/94/EC in the currently applicable version: the figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models.  
3 Data applicable within the European Union only. Country-specific deviations possible.  
4 Calculated on the basis of the measured CO2 emissions taking into account the mass of the vehicle.

The best for the engine:  
Genuine Mercedes-Benz engine oils.

\(^1\) Figures according to Directive 70/156/EEC, version 2000/40/EC. \(^2\) Figures according to Directive 92/21/EC, version 95/48/EC (kerb weight with fuel tank 90% full, driver, 68 kg, and luggage, 7 kg) for standard-specification vehicles. Optional extras and accessories will generally increase this figure and reduce the payload capacity accordingly. \(^3\) Figures apply exclusively to natural gas operation in kilograms per 100 km. Values in square brackets apply to engines in conjunction with optional 7-speed dual clutch transmission 7G-DCT. You can find further technical data at www.mercedes-benz.com
Dimensions.

All dimensions in millimetres. The dimensions shown are mean values and apply to standard specification, unladen vehicles. The dimensions shown correspond to vehicles with a diesel or petrol engine. For the B 200 Natural Gas Drive some of these data can vary.

\(^3\) Part of the Exclusive package. \(^4\) In the case of Exclusive package optionally available for no extra charge.
**Take-back of end-of-life vehicles.** At the end of its long life, you can return your B-Class to us for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day lies a long way off.

A network of vehicle take-back depots and dismantlers has been established to make it as easy as possible for you to return your vehicle. You can leave it at any of these points free of charge. In so doing, you will be making a valuable contribution towards completing the recycling loop and preserving resources.

For further information about the recycling and disposal of end-of-life vehicles and take-back conditions, please visit your national Mercedes-Benz website.

**Please note:** Changes may have been made to the product since going to press (09.07.2014). The manufacturer reserves the right during the delivery period to make changes to the design, form, colour or specification, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may include accessories and optional extras which do not form part of the standard specification. Actual colours may differ slightly from those shown owing to the limitations of the printing process. This brochure is distributed internationally. Information given regarding statutory regulations, legal requirements and taxation and the consequences thereof applies to the Federal Republic of Germany only and is correct at the time of going to press. For current and more specific information in relation to the range of models, features, optional extras, colours and/or services available in your country, and their pricing, you should contact your nearest authorised Mercedes-Benz Passenger Car Dealer.
